

Performance Revised

Exercise

1. ***Same groups as this morning***
2. ***Record yourselves***
3. ***Give feedback on two axes: content vs. presentation and better vs. worse (compared to this morning) rather than absolute positive vs. negative***
4. ***Everyone gives feedback on everyone in the group (i.e., you give feedback on yourself as well as getting feedback from others)***
5. ***Please add a sentence or two to Google Doc about whether working through the idea with a concept map helped, did nothing, or got in the way, and whether you were more or less comfortable than last time***

When all feedback done, return here for following-up.
